ENSURING

CALIFORNIA

This session is two parts, we will be highlighting the ways in which you can utilize the Transfer Admission Planner to prepare your students for their transfer journey as they prepare to apply to one or all of the UC campuses! The second part we will be discussing what our TAG campuses are looking for to get the guarantee and some of the common mistakes that can impact a student's guarantee.

Poll

- Are you are familiar with the UC Transfer Admission Planner?
- Have you have used it when advising your students who are applying to a UC campus?

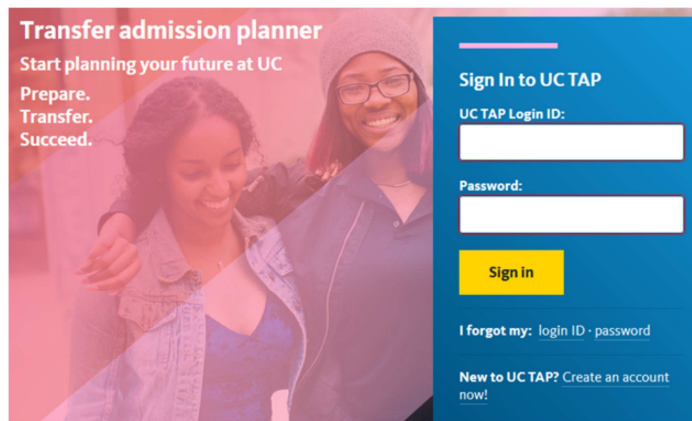

UC Transfer Admission Planner (UC TAP)

Who is it for?

- California Community College students and counselors
- Those planning to apply for Transfer Admission Guarantee (TAG)

When should students create a TAP account?

- The sooner the better!

To get us started I want to share a really great resource that we have for you and your students. So what is the UC transfer admission planner? The UC TAP is a free tool to help students track and plan their coursework and is used by all the UC campuses. This is available to California community college counselors and their students. In addition to it being used as a tool, it also required for students who planning on applying to one of our 6 TAG campuses.

We highly encourage students to create their TAP account as soon as possible. The sooner they can create it the sooner we can provide them with the tools they need to be successful applicants! A reminder that the UC TAP tool is used by all the UC campuses!

UC TAP benefits to counselors

UC TAP features:

- Calculate preliminary units, GPA and completion of 7-course pattern
- Use as an evaluation tool to work with TAG students
- Provides the list of UC TAG contacts

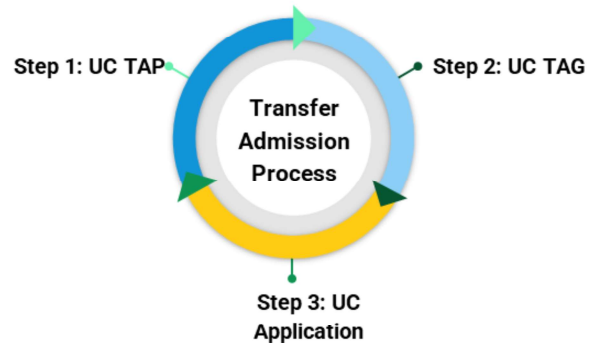

Counselor perks:

- View completed and planned coursework at every institution the student has attended
- Communicate with students by sending notifications and reminders to specific subgroups of students
- Access to reports and outcome data

While we know that each of you use your own tools at your specific campus, we want to highlight the ways in which the TAP tool can serve as another resource for you. Through the counselor view you can view all the coursework completed and planned at every institution that your student has attended. And please remind your students to include their fall 2023 and spring 2024 planned courses if your students are planning to apply for fall 2024 cycle. It also calculates preliminary units, GPA and completion of the 7 course pattern. You can communicate with students that have a TAP account that haven't met with you yet. It also has evaluation tools to work with TAG students and participating UC Campuses and can provide you a list of the UC TAG campuses. Additionally, you can also access reports and outcome data.

UC TAP Benefits for students

- Receive communication regarding upcoming events/visits from UC representatives and community college counselors
- Track student progress towards meeting admission requirements
- Easily import data from TAP to the UC application
- Central recordkeeping for students who have attended multiple CCCs
- Required for TAG!

Now that we've highlighted some of the benefits for you as a counselor, we will highlight how students will also benefit from creating and utilizing a TAP account. When they create a TAP account they will be able to receive communication regarding upcoming events/visits from UC representatives and college counselors. This will also allow counselors to track student progress towards meeting admission goals.

Once they've created their TAP account and are ready to apply to a UC campus, they can import the data from their TAP account into their UC application.

It's also a place where they can keep track of all their coursework when they've attended multiple CCC's.

And last but not least it is required for TAG!

UC TAP for counselors

- Create/Login to access TAP account
- IT support

We encourage those who are interested in gaining access to the UC TAP to reach out to your Transfer Center Coordinator/Director as they are likely the administrator for the UC TAP at your campus. They can approve your access.

Now we're going to go over how to utilize the tool. This is how the community college counselors page looks

- 1) This is where you can log in

Welcome to UC TAP,

6/27/23

In an effort to align with the UC application for admission, we have begun collecting "lived name" information in UC TAP. When a student profile is opened, you will see a "lived name" designation by the student's name if the student has provided one. A similar designation will also display on the "Students Search" page.

As always, let us know via the feedback tool if you have questions.

September is UCTAG Season! Submit by 11:59pm September 30, 2023 for Fall 2024 transfers!!

There are six UC campuses that offer the TAG (Transfer Admission Guarantee) for California community college students: Davis, Irvine, Merced, Riverside, Santa Barbara, and Santa Cruz. (TAGs are not offered for Los Angeles, Berkeley, and San Diego.)

If you are planning to submit a TAG, please be aware of the following:

1. You can apply for a TAG at one campus (of the six that offers them).
2. TAG applications must be submitted between September 1 to September 30, but begin the process now. Please update your TAP accounts to reflect all completed courses and grades. Fall 2023 courses must be listed as "in progress" and Spring 2024 courses must be listed as "planned."
3. You must have at least 30 UC-transferable units completed at a California community college at the time that your TAG is submitted.
4. Each UC campus which offers the TAG will have their own specific criteria – including GPA and completion deadline for English and Math courses. [Check the TAG matrix for campus specific requirements.](#)

The screenshot displays the UC TAP for students interface. On the left, a navigation menu includes sections like 'About me', 'Personal information', 'Demographic information', 'Support programs', 'Account settings', 'My academic history', 'Schools attended', 'Coursework', 'Exams', 'My transfer plan', 'Where and when I plan to transfer', 'Apply for a Transfer Admission Guarantee (TAG)', 'Apply for transfer admission', 'Messages', and 'Record Review'. Yellow arrows point to 'Support programs' (1), 'Schools attended' (2), and 'Where and when I plan to transfer' (3). The main content area shows a form for 'What is your student ID number at your current school?' with a text input field (4). Below this is a section for 'Colleges/Universities' with a dropdown menu set to 'SACRAMENTO CITY COLLEGE'. It includes fields for 'Start' (January 2020) and 'End' (May 2021), a radio button for 'Is this your current or most recent school?' (Yes selected), a dropdown for 'What type of school is this?' (CCC or CA 2-Year College), and a radio button for 'Does this school run on the semester or quarter system?' (Semester selected). A 'Save' button is at the bottom (5). On the right, the 'My transfer plan' section has a dropdown for 'Select the term and year you plan to transfer to UC:' set to 'Fall 2023' (6). Below this are checkboxes for various UC campuses: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara, and Santa Cruz. At the bottom of the page, there is a banner for the 'ENSURING TRANSFER SUCCESS CONFERENCE' and logos for the 'UNIVERSITY OF CALIFORNIA' and 'California Community Colleges'.

If you are assisting students filling out their UC TAP, we recommend that you quickly check #1, 2, and 3

- 1) Under Support programs, the University of California Office of the President (UCOP) displaced Transfer Prep initiative. Each UC campus has transfer support services. Please encourage your students to reach out to the programs
- 2) Under Schools attended, if your student is enrolled at multiple schools, have them only report yes on their primary school. There should only be one.
- 3) Under When and where I plan to transfer, please remind your students to report the appropriate term. For example, if students put past term, they will not get communication from UC rep/transfer center at their CC. Most UC campuses only offer Fall term. This is important for TAG, because once tag is submitted, student's profile will freeze and they will not be able to sign in to make changes. Lastly, please don't forget to press save! Another area that students usually skip over is the student ID question.
- 4) Under Personal Information, if students scroll down to the end of the page, they will be able to report their student ID from their community college
- 5) Screenshot of #2
- 6) Under My transfer plan, please remind students to change their term when plans change. If this is not updated or reported correctly, support programs and the CC transfer center coordinator won't be able to pull reports and we won't be able to contact them to prepare them.

UCSB -

Why are some TAG applications denied?

Common TAG mistakes:

UC-E, UC-M Deadlines

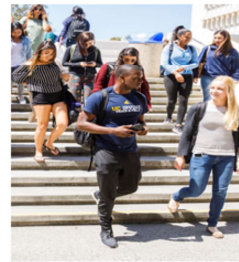

- UC-E, UC-M deadlines differ per campus

Missing a UC Application

- The TAG application ISN'T the UC application
- All TAG applicants must also submit a UC application under the same major

Missing required major pre-reqs

- TAG requirements also indicate that the student must meet their specific major requirements for some majors

ENSURING
TRANSFER SUCCESS
CONFERENCE

UNIVERSITY

CALIFORNIA

*Note – verify all TAG requirements to make sure students are meeting all the criteria.

Know that although this isn't an extensive list of why TAG applications may be denied, here are common mistakes that cause a student to become TAG ineligible:

Common TAG mistakes continued

Transfer Academic Update (TAU)

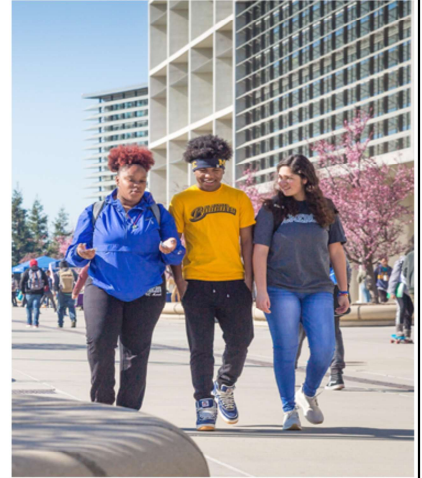

- TAU needs to be submitted as a requirement for regular transfer admission

Changes to in-progress or planned courses

- TAG applicants may make changes to their IP/PL courses in the TAU, but be careful!

Short units

- TAG requirements require that students must meet junior level transfer units

ENSURING

TAU - if no TAU is received, TAG and regular transfer app **cannot** have a complete review

Changes in IP/PL courses - If those courses were required to meet TAG criteria and applicants report them with NP or withdrawn (W) grades, they may lose their TAG eligibility.

TAG frequently asked questions

ENSURING
TRANSFER SUCCESS
CONFERENCE

UNIVERSITY
OF
CALIFORNIA

There are a lot of details to keep in mind for a Transfer Admission Guarantee - the following are frequently asked questions about the UC TAG

My student submitted their TAG application, but now they want to change their major - can they still TAG?

No. If your student lists a different major on their UC application than their TAG application, then their TAG will become void.

Students that change their major will void their TAG application, but not their UC consideration.

ENSURING
TRANSFER SUCCESS
CONFERENCE

UNIVERSITY
OF
CALIFORNIA

In this scenario, your student would have applied for TAG, and they're about to submit their UC application - they haven't gotten their acceptance yet:

If the major your student listed on their UC application is different from what they put on their UC TAP application, their TAG will become void. Students must list the same major on each application to remain eligible for TAG.

Students who change their major will be reviewed for regular admission to the major specified on the UC application. If changing their major is the only reason your student does not meet the TAG criteria, but they have the required major preparation for their new major (if applicable), then they could still be a strong candidate for regular admission.

My student was accepted into their TAG major but now wants to switch their major once they come to the UC, is this possible?

Changing majors is difficult to do as a junior level transfer student, and each UC and major department will have their own restrictions if switching majors is even possible.

ENSURING
TRANSFER SUCCESS
CONFERENCE

UNIVERSITY
OF
CALIFORNIA

In this scenario, your student has applied to TAG, been accepted, and decided to attend the UC:

Changing majors isn't impossible, however may be difficult to do as a Junior level transfer student. It's also up to the UC and department if switching is at all possible.

Is TAG really a guarantee?

Yes - as long as all of the requirements are met.

If your student submits a TAG application and meets all of the conditions of the TAG, then they are guaranteed admission.

If your student submits their TAG application but does not meet all of the conditions of the TAG, then admission to the UC is not guaranteed.

ENSURING
TRANSFER SUCCESS
CONFERENCE

UNIVERSITY
OF
CALIFORNIA

Is TAG really a guarantee? Yes - but submission of a TAG does not guarantee admission, meeting the specific TAG criteria and major prep does! If your student submits a TAG application and meets all of the conditions of the TAG, then they are guaranteed admission to the UC. If your student submits the TAG application but does not meet all of the conditions of the TAG, then their admission to the UC is not guaranteed.

Examples of not meeting TAG could be: not meeting deadlines, not filling out the UC application along with the TAG application, failed courses after applying, changing majors from your TAG app, missing major prep courses.

What should my students do if they have different or updated coursework that is different from their TAG application?

- Provide their current course schedule in the UC Application
- Update grades and coursework in January through the UC Transfer Academic Update (TAU)
- Review the terms of the specific UC campus TAG requirements to ensure they're still meeting requirements

It's very common that after submitting their TAG application, your students course schedule might have changed - they might have enrolled in different courses than they planned to, dropped a class, or maybe even attended another community college.

If your student entered courses they might take for the winter or spring term on their TAG application, but then changes, know that they can update this information on their UC application. If their course schedule changes after they submit their UC application then know that they can update this information via the Transfer Academic Update in January.

It is okay if your students TAG and UC application planned spring courses do not match, as long as the student is checking with you or the UC to make sure they are still meeting TAG eligibility, major preparation requirements, and other deadlines. Counselors and students can always reach out to the UC campus to ask questions!

When will TAG decisions go out?

UC Campus	Terms in which TAG is accepted	Pre-evaluation of coursework?	Decision Release
Davis	Fall quarter only. Filing period Sept 1-30	Yes	Fall TAG Mid-November
Irvine	Fall quarter only. Filing period Sept 1-30	No	Mid-late April 2024
Merced	Fall; Filing period Sept 1-30 Spring; Filing period May 1-31	Yes	Fall TAG Nov. 15th Spring TAG - July 1 st
Riverside	Fall; Filing period Sept 1-30 Winter; Filing period May 1-31	No	March-April 2024
Santa Barbara	Fall quarter only. Filing period Sept 1-30	No	Mid-late April 2024
Santa Cruz	Fall quarter only. Filing period Sept 1-30	No	Mid-late April 2024

This chart shows what terms the UC campuses accept TAG for, if they do any pre-evaluation of coursework, and when you can expect a decision release.

Are all courses listed in Assist required to qualify for TAG?

It depends! Every UC has their own requirements, deadlines, and expectations for TAG, as well as their majors. It's important to check with a UC representative from that campus if you or your student are unsure.

It really depends, campus by campus, what is required and recommended in regards to TAG - it's important to connect with specific campuses to make sure all requirements are being met for TAG.

In general, keep an eye out for these terms on assist:

- Assist will show **required** major preparation courses and **recommended** major preparation courses
- 'Course not articulated' doesn't mean you don't have to take the course - it just means your student needs to find the course at a different CCC.
- "AND" series - if a series of courses is listed with "AND", versus "OR", you need to complete all of the courses
