UC DAVIS

Veronica Zendehjas
Interim Director of Evaluation and Policy
We enrolled a total of 3,013 admitted transfer students, with 1,528 of these enrolled students having being admitted through TAG.

- International- 2928 apps, 1878 admits, 323 enrolled, 64.1% admit rate
We have added new majors for the Fall 2022. In the College of Biological Sciences, the Systems & Synthetic Biology major will be open to Fall 2022 applicants while the Human Biology major will only be open to currently enrolled UC Davis College of Biological Sciences students.

In the College of Letters and Science, Data Science will be open to Fall 2022 applicants. The major focuses on preparing students for one of the fastest-growing occupations in the US with its new interdisciplinary major, which is a collaboration between the College of Letters & Science and the College of Engineering. The major will prepare students to collect, manage, and analyze data to consider the ethical and societal impacts. This major is not selective as of now.

For a list of all UC Davis majors and major descriptions, please visit: https://www.ucdavis.edu/academics/majors
As a reminder, the following College of Letters & Science majors will become selective and require major preparation to Fall 2022 applicants: Applied Math, Mathematical Analytics & Operations Research, and Mathematical & Scientific Computation. With these majors moving to selective status, all UC Davis math majors will be selective now.

Additionally, Computer Science is closing to TAG beginning Fall 2022.

Lastly, with the addition of the Systems & Synthetic Biology major in the College of Biological Sciences, the new major will follow the same selective major requirements as the rest of the college.

For complete selective major requirements, please visit: https://www.ucdavis.edu/admissions/undergraduate/transfer/selective-major-requirements
There are several major-dependent changes happening in the College of Engineering so we encourage both students and counselors to visit the selective major requirements website for a complete list of courses: https://www.ucdavis.edu/admissions/transfer/major-requirements-college-engineering

The Managerial Economics major will have a GPA drop effective for Fall 2022 applicants while it will be adding a course for Fall 2023. These changes are displayed on the website: https://www.ucdavis.edu/admissions/transfer/major-requirements-college-agricultural-environmental-sciences#manecon

The Economics major removed some course requirements effective for Fall 2022 applicants: https://www.ucdavis.edu/admissions/transfer/major-requirements-college-letters-sciences#econ
We are planning towards opening campus for mostly in-person instruction beginning September 22\textsuperscript{nd}. Classes will be less than 50 students and to take advantage of our large campus, we are working on adding more outdoor study space. For the most current updates regarding campus’s fall plans, please visit: https://campusready.ucdavis.edu/

Orientation will continue its three-phase format with the online Aggie 101 portion opening on June 9\textsuperscript{th} as a way to introduce students to campus, campus resources, and university requirements. Virtual academic advising will follow and students will get to register for courses with their advisers in this second part. The last part will be in-person and happy the week before classes (September 17\textsuperscript{th}-22\textsuperscript{nd}). https://orientation.ucdavis.edu/dates-and-deadlines

Transfer housing (including family, transfer themed residences, etc) is available and we have guaranteed student housing apartments for single students. On campus family housing available as well as on-campus Child Development Centers are available. Students will need to indicate a need for specialized housing in their housing application after submitting the SIR. https://housing.ucdavis.edu/family-housing/
This past year has brought challenges to everyone, across the globe. Here at UC Davis, we have taken this challenge in stride and done our best to protect our students as well as our community. We developed a unique COVID test with rapid results that was made available to students, staff, and the surrounding community to help us manage any cases of COVID-19 with expediency. We did such a great job that the NY Times even featured us as a success story: https://www.nytimes.com/2021/01/30/us/college-coronavirus-california.html

Our campus also awarded students small grants for safe gatherings to celebrate Halloween and enjoy Spring Break safely. You can find that article and more details about all of our efforts to keep us healthy on our campus ready page: https://campusready.ucdavis.edu/testing-response/dashboard

We will be hosting our main and largest student yield event for admitted transfer students, Aggie Experience Live!, from May 4th-8th. Additionally, we will be hosting counselors “ask me anything” webinars throughout the month of May so make sure to join us if you have any questions about any part of the transfer admissions process.
We’re excited to announce that Assist.org for all UC Davis majors have been updated! We know how much you all use Assist and wanted to make sure that all the information was easily accessible again. We are still recommending students and counselors visit our UC Davis website for major admission requirements and then use Assist to see what these courses are at their primary community colleges as Assist will display all lower-division graduation requirements.

Lastly, we will be hosting a series of counselor webinars for three consecutive weeks in May. It will be moderated by community college counselors to address any questions counselors may have about UC Davis and the transfer admissions process.
FALL 2020 TRANSFER RECAP

- 25,957 applications
- 6,271 admits
- 24% admit rate
- 3,791 fall enrollment

- 3,163 waitlist offers
- 2,153 waitlist opt-ins
- 710 waitlist admits
- 490 appeals received
- 23 appeal admits

**ADMISSION UPDATES:**
- Additional major preparation for Biochemistry
- ‘C’ grades acceptable in Organic Chemistry sequence for some Biology majors
- Data Science major prep expected for fall 2023
TRANSFER VIRTUAL SERVICES

1. Transfer advising appointment offered every Friday during fall and spring.

2. New! Transfer Tuesday drop-in advising

   Virtual presentations and workshops:
   - Admissions presentations
   - TAG workshops
   - Application workshops
   - Next Steps to Enrollment

3. Transfer student panels

TRANSFER APPOINTMENTS: connect.ucr.edu/portal/transfer_appointment
VIRTUAL EVENTS: connect.ucr.edu/portal/us_transferevents
HOUSING UPDATES
UCR offers Transfer Students three living styles – Residence Halls, UCR Campus Apartments, and Family Housing. Be sure to check out the high-demand North District Apartments! Apply year-round at myhousing.ucr.edu.

FALL INSTRUCTION
UCR is expecting to expand in-person instruction for fall 2021.

ORIENTATION
There are five one-day sessions for incoming transfer students in September. Learn about UCR’s campus and traditions, talk with academic advisers, schedule classes, discover ways to get involved, connect with other first-year students, and more! Registration will be available April 1!
UNIQUE. COMMITTED. REAL. JUST LIKE YOU!

ENSURING TRANSFER SUCCESS (ETS)
May 2021
Timothy Borch, Assistant Director
This data is keyed off FA20 applications (APPS).
Completion of major preparation is critical to the success of transfer students and specific majors do require completion of minimum major preparation in order to be eligible for admission. UC San Diego does not admit transfer students as undeclared. You can learn more on our website at https://admissions.ucsd.edu/transfer/transfer-major-preparation.html.
Admissions Officers are available to support you and your students. Virtual offerings include individual appointments, and yield programming for newly admitted transfer students, including Transfer Triton Day, scheduled for Saturday, May 15. Newly admitted students will have an opportunity to connect with staff, faculty, and current UC San Diego students, to learn more about why UC San Diego is right for them.
The Triton Transfer Hub offers extensive virtual programming for current students to stay connected with UC San Diego and each other.

The Transfer Year Experience (TYE) course is designed to help make a successful transition to UC San Diego, both academically and personally. The three pillars of TYE are experiential learning, career and community.

On-campus housing options, including brand new apartments for families and students with children.

1. Transfer Triton Hub: Transfer Center offering a whole host of programs and services to support transfer student success.

2. Transfer Year Experience (TYE) course is designed to help make a successful transition to UC San Diego, both academically and personally. The three pillars of TYE are experiential learning, career and community.

3. On-campus housing for transfer students and family housing.

4. UC San Diego's Teaching + Learning Commons consists of six hubs, which offer a wide range of programs, services, and research to assist all members of the UC San Diego community in developing learning environments and experiences that encourage engagement and foster student success.
- **Geisel Library**: Geisel Library is the main library building of the University of California, San Diego. It is named in honor of Audrey and Theodor Seuss Geisel. Theodor is better known as children's author Dr. Seuss.

- **Student Veterans Resource Center**: The Student Veterans Resource Center (SVRC) is committed to the success of our military-connected students. We serve student veterans, military service members, their family members, and ROTC. In collaboration with campus and community partners, we support the academic, personal, and professional success of our students. [https://svrc.ucsd.edu/](https://svrc.ucsd.edu/).

- **Fallen Star**: Fallen Star is an art installation by South Korean artist Do Ho Suh on the grounds of the University of California San Diego. It is a cottage perched at an angle off the edge of the main Jacobs School of Engineering building.

- **The university’s first Living and Learning Neighborhood, North Torrey Pines**: Living and Learning Neighborhood, will become the new home of Sixth College and two new academic buildings, one for the Division of Social Sciences and one for the Division of Arts and Humanities. Blending cultural, residential and retail spaces among the classrooms, this neighborhood will also include the reimagined UC San Diego Craft Center.
UC San Diego is looking to be back on campus in the fall. Learn more online on the Return to Learn website at https://returntolearn.ucsd.edu/.
Experience UC Santa Cruz

Between the Mountains and the Sea

Blia Yang
Director, Undergraduate Admissions
We saw a nice increase in our fall 2021 applicant pool, thanks to your hard work and partnership with us.

These figures were pulled at the time the slides were due, March 26

**Applicant Data Only**
- 66% of applicants are first generation college students
- 90% of our applicants are attending a CA CC
- nearly 6% are ABC
- less than 1% are AI
- nearly 29% are Latinx
For fall 2021:
- Discontinuance of the Production Concentration under the Film and Digital Media B.A.
- New Certificate Program in Teaching English as a Second/Other Language (TESOL)
- New Minor in Spanish Studies
- New Geophysics Concentration under the Earth Sciences B.S.

Effective for fall 2022 cohort
- All of the MCD sponsored majors (Molecular, Cell, and Developmental Bio, Biology B.S., Neuroscience and Human Biology) will begin enforcing that students must have completed a course equivalent to CHEM 8A (the first organic chemistry course) and either MATH 11A or MATH 19A.

Earth Sciences is interested in becoming a screening major but will need to go through the process for obtaining approval.

-------------------

**Most Popular majors:**
- Psychology, Computer Science, Business Management Economics, Sociology, Biological Sciences and Economics
• Nearly 45% of the entire applicant pool applied to just 5 of the more than 60 majors offered.

Alternate Offers:
Some students were offered fall on condition they complete specific courses over the summer
Students may have been offered admission to a second choice major
Students may have been offered admission to winter 2022 with conditions

Waitlisted Students
- Still using the July 1 deadline for transcripts & July 15\textsuperscript{th} for exams, i.e. AP, TOEFL, IELTS

- Submit documents electronically or via US Postal, we are still processing hard copy documents

- Working to be able to receive documents through Slate but would require sending institutions to sign up with the free Parchment Services

- With the exception of Psychology and Cognitive Science, departments are allowing P/CR grades in screening coursework taken during spring 2020 ONLY. There may be additional caveats by major. Important for students to connect with us directly if there are any concerns. Cases will be handled individually.

- If students are unable to pay the SIR deposit, they can contact our office.

- **Santa Cruz has not made a final decision about the mode of instruction for fall.**

- If unable to start fall term because of illness, unable to physically get into the US or other COVID related issues, students may request to defer their enrollment to winter and or fall 2021 but must submit a SIR by deadline.

Talking Points

As counselors, and possibly parents yourselves, I am sure you are interested in know what instruction and housing will look like on-campus this fall. The campus has done an exceptional job of working across academic and administrative offices to service students this last year, and to prepare for our much anticipated reopening this fall. We are sharing what we know as of today with you, but please be aware situations can change and we ask all students and families to be flexible and keep up to date.

Currently, we are working with the following fall planning assumptions:

1. There will be in-person and remote teaching and learning options.
2. Students will be able to remain remote and still make progress toward their degree.
3. Exploring larger classroom occupancy, with classes that are over 150 students being held remotely. Those classes
that are 150 or less will be allowed to meet in person. Yet, large lecture courses are expected to be fully remote/online only. Smaller discussion sections could be a mix of remote and in-person.

4. Exploring two-thirds occupancy for all campus housing options- residential halls and apartments.

5. Flexibility is key as we will be constantly re-assessing options vis a vis health and safety updates.

6. The well being of our community remains the top priority.

7. We are holding additional webinars in the future to share updates on fall instruction & student housing for all incoming students.
